

REVOLUTIONARY METHOD of propulsion was introduced to Edmontonians today when Luna Gas Company demonstrated propane gas as a means of operating many kinds of motors. The new product is said to give to 70 per cent more power than gasoline. Here Alfred Luna feeds some new fuel to a tractor prior to a practical exhibition.

Wildcat Well Test Underway

A wildcat oilwell, Okalta Leud No. 2, may cause extension of Leud No. 2 field and one-half miles southward.

A third test of the D-2 is under way today.

The well is located directly south of Continental Leud No. 1, a strong producer.

Drilling revealed good porosity at 5162 feet with oil staining when they drilled 522 feet, at 5175 feet, gave gas flow of 23,000 cubic feet per day with recovery of 150 feet of oil mud.

Results of second D-2 test have not been announced.

They were described as "most encouraging."

The hole may be drilled into D-3 for production.

Magistrate Fines City Speedsters, Issues Ultimatum

Two motorists, William Arthur Betts and John P. Lott, were fined \$15 and \$20 and given when they pleaded guilty to the charges of speeding in police court Saturday.

First D-2 test, at 5175 feet, gave gas flow of 23,000 cubic feet per day with recovery of 150 feet of oil mud.

Results of second D-2 test have not been announced.

They were described as "most encouraging."

The hole may be drilled into D-3 for production.

Czech Communists Ignore U.S. Demand

LAKE SUCCESS, N.Y., March 27.—(AP)—The Czechoslovak Communist government will ignore a United States demand for an explanation of its rise to complete power, a spokesman said today.

He said the new regime takes the position that the coup last month was an internal affair and the United Nations has no business investigating. The spokesman for Prague and Moscow say their cards on the Security Council table does not alter the situation. Houdak has refused to take part in the debate.

Neither were given stern warnings by Magistrate A. I. Miller that similar offenders would result in more severe penalties and suspension of driver's license.

Golf Tournament Held Up by Rain

CHARLOTTE, N.C., March 27.—(AP)—Rain caused postponement of the third-round of the \$10,000 Charlotte golf tournament. Thirty-six hole finals will be played tomorrow.

Chick Harbert, long-driving pro from Detroit, was leading with 66—132, a dozen strokes under par, at the end of yesterday's second round.

30 Days For Theft Of Leather Jacket

Wally R. Clemens, no fixed address, who pleaded guilty to a charge of theft of a leather jacket from a city rooming house, was sentenced to 30 days in Fort Saskatchewan jail by Magistrate A. I. Miller in police court Saturday.

The jacket is the property of Lloyd Auer.

GRAVE OF CITY FLYER LOCATED IN GERMANY

Grave of an Edmonton flyer, reported missing on operations with the RCAF three years ago, has been located in Germany.

Mrs. Eugene Perron, St. Albert, received notice from RCAF headquarters in Ottawa that her brother, PO Frank E. Hogan, is buried in Wiesbaden, Germany.

PO Hogan was reported missing following an attack on enemy territory Feb. 3, 1943.

He was later presumed dead.

Before enlisting, he was assistant secretary of Ray municipal district at St. Albert.

PINCHER CREEK WELL SPARKS DEVELOPMENT

Last test reported from Canadian Gulf Oil Company's Pincher Creek discovery well states that it is producing gas at the rate of 12½ million cubic feet daily and is flowing a light crude at the rate of 350 barrels a day.

This well is located about 20 miles southeast of the town of Pincher Creek and 16 miles north of the Montana border.

The well is bottomed at 11,927 feet which is 200 feet in the Madison limestone which produces for Turner Valley.

Gulf has started another well in the area and it is anticipated that a number of independents and Imperial Oil Limited will develop property in the area.

Small-Fry Nazis To Escape Trial

BERLIN, March 27.—(AP)—Gen. Lucius D. Clay, United States military governor, today approved measures to permit about 300,000 nominal or small-fry Nazis to escape formal trial.

The action will reduce by two-thirds the 800,000 cases still pending and speed the whole denazification process in the American zone to completion by the end of spring.

In addition to reducing the number of trials by granting German public prosecutors full discretion to drop charges, the plan also will let lesser offenders to resume positions in private industries and business—except key post-pending trials. Previously untied Nazis had been restricted to manual labor.

German prosecutors may classify any remaining cases, except when they involve major offenders, and decide whether they need be brought to trial or can be disposed of summarily.

Remand Is Asked In Shoplifting Case By Crown Prosecutor

Peter Piney, Alaska road, reserved plea on charges of theft of a quantity of merchandise from an Edmonton department store when he appeared in police court Saturday.

At the request of Crown Prosecutor Doug Macdonald, the case was remanded until April 2.

A police check of Piney's room revealed a large list of merchandise.

Police Saturday charged Piney with theft of seven pairs of socks, four shirts, one package of cookies and one pair of gloves.

Other charges are pending police powers.

Cambridge Wins Historic Victory

LONDON, March 27.—(BUP)—The light blue carmen of Cambridge University won a historic 50th victory today, defeating Oxford by about six lengths in the 94th Cambridge Oxford golf tournament.

NO TROUSERS, SPURNS RESCUE

—Terry Higgins, 40, who firemen say declined to come into public view because he could not find his trousers in his smoke-filled room, was rescued from an upper-story window Friday while fire raged through the basement of the house.

Most of Mr. Higgins was given an extra fireman's coat and assisted down a ladder. The trousers were found later.

Former City Man Dies in Car Mishap In Detroit Thursday

Dr. Alphonse M. Crawford, 50, a former resident of Edmonton, was killed in an auto accident in Detroit Thursday.

Word was received of the death in Edmonton today.

He was a graduate in medicine of the University of Alberta and a specialist in chest surgery, he practiced in Westlock and Edmonton before going to Detroit.

He is survived by his wife in Detroit, one son, Edward, attending University of Michigan, and a daughter, Betty, at Kalamazoo University, Michigan.

Wide Taxation Powers Asked

Sewing machines, washing machines, refrigerators and other household appliances can be taxed under a charter amendment given approval by the municipal law committee of the legislature.

Opposition to the measure started Thursday and it will be reconsidered at a meeting of the committee Tuesday.

The amendment is contained in a changed definition of land which provides for the taxation of all machinery and fixtures erected or placed upon, or affixed to land.

The present charter clause only empowers taxation of machinery in cases of special franchise, but specifically exempts all other machinery.

T. E. Garvie, C.K. city solicitor, stated Saturday the change was made to permit the taxation of equipment in frozen food storage establishments.

Opponents of the charter amendments consider that any power relating to the taxation of machinery should be specifically stated in the charter.

Calgary's charter provides the wide taxation powers sought in the city's proposed amendment.

Young, Pretty But Jailed

Young and attractive Winifred I. Veltch of Blairmore Friday impresses Magistrate A. I. Miller in police court Saturday.

Pleading guilty to five charges of false pretences she was sentenced to four months on probation, with a fine of \$50 and a \$15 wedding ring from a local jeweller.

She was on a girl's suspended sentence for similar offence at the time.

Court was told the girl passed the cheques to get sufficient money to return to relatives at Blairmore.

Large City Utility Program For 1948

(Continued from Page One)

situation. If all projected improvements would be carried out in improvements he said.

Stress will be laid on local improvements he said.

Briggs construction will include substructure of McLaughlin low level, redecking of 165 street and (doubtful) redecking of Great River bridge.

Police will get \$6,500 for a new police station and \$6,000 for radio headquarters.

Downtown underground comfort for radio headquarters.

Eight thousand will go to installation of two traffic lights at 100 and 102 streets and Jasper, at 101 and 102 streets and at 100 street and 102 street.

DRIVER FINDS SPREE COSTLY

Ten days in Fort Saskatchewan jail and six months' suspension of his driver's license was meted out to Ambrose L. O'Sullivan, 1967 30 street, when he pleaded guilty to a drunken driving charge before Magistrate A. I. Miller in police court today.

O'Sullivan, a city bartender, was charged with having driven his car into the rear of a party of five driving truck near the intersection of 103 avenue and 97 street at 9:30 p.m. Thursday.

The truck was owned by Jack Brezner, 10313 Glenora Crescent.

Canada May Get British-Made Steel For Construction

Curtailed of home consumption of steel products in Britain will release them for export to Canada.

G. W. Birch, technical representative of Henry Hope & Sons, Ltd., Birmingham, is now in Edmonton making a study of building conditions in this country from a British export standpoint.

He is conferring with architects throughout the country to discover possibilities of export for their firm's products.

Market in Canada is limited at present time, he said, but shipments have already started.

From Edmonton he will go to Saskatoon and then to Eastern Canada.

Graceful lines . . . flexible construction . . . patented shock absorber that prevents foot fatigue. Fine quality black kid. Sizes 9 to 10. Widths 3A to C. 11.50 Priced

Christian Meaning of Easter

Easter has no significance whatever outside its place in the Christian Faith. It is an exclusively Christian festival. And those who celebrate its incidence in a material rather than a spiritual way by the wearing of bright new garments and other gay rites are adding unwittingly to the rejoicing that characterize the occasion which commemorates our Lord's victory over death.

For Easter is preeminently a day of joyousness. Gaiety is intrinsic in its meaning. It represents the birth of a new world and a new hope for mankind.

But in the guise of Easter, its solemnity should not be forgotten. For the Resurrection is only the continuation of the Crucifixion. If Christ had not died on the Cross, He would not have risen from the dead. If He had not given up His earthly life in anguish and sorrow for men, the fact of the Resurrection by which He

opened the gates of heaven to believing humanity could not have occurred.

Calvary was the culmination and the purpose of Christ's life. The Cross was His goal just as it is the glory and salvation of men.

The whole course of human history has been a record of man's search for God. The pagans and the philosophers and the priests all sought in their varying ways to know and understand Him.

Jesus was born into the world in Bethlehem that all men, knowing and seeing Him, might know and see His Father.

He died on the Cross that all men might understand the infinite depth of God's love.

He rose from the dead in his human flesh that, entering into heaven, he might at length take with him into that place of peace and felicity all those who share His humanity and believe in His divinity.

Fifth Columnists Sent Packing

Prime Minister Attlee takes a courageous and commendable step in announcing that Communists are expelled from the moved from the public services of Britain.

It is a commendable step because, as he himself pointed out, the Canadian espionage enquiry disclosed what a tremendous potential opportunity for harm lies in the hands of government workers who have access to private national information and lack the loyalty to keep it secret.

It is a courageous step because it is sure to alienate the support of the more radical left wing of his party whose mem-

bers, if they have no actual tie with Soviet Russia, do have an ideological and ideological leaning towards its philosophy.

Mr. Attlee's action reveals once more what has been commonplace in British political history—that with rare exceptions the people of Britain possess an inherent patriotism that surmounts their social doctrine no matter how extreme the latter may be.

It is no longer a paradox that thousands of young men have died for Britain loathing Britain's government.

Rank Discrimination in the CBC

It is impossible to understand by what peculiar process of reasoning the Canadian Broadcasting Corporation has been able to recommend a commercial license for a French language radio station in Edmonton after refusing, on four occasions, that same privilege to the station operated by the provincial government telephone department.

The application by CKUA for a commercial license has been emphatically and peremptorily denied on the ground that such a license would impair the profits of the other two commercial stations in this city.

That latter statement is quite wrong because other cities with populations smaller than that of Edmonton support three commercial stations with no trouble. Calgary, for instance, with a population of 105,000 as against Edmonton's 115,000, has three such stations which are obviously not cramped by the three-way competition.

But, right or wrong, that was the reason given by the CBC for turning down

the application of the provincial government station here.

In the last communication sent by the CBC to CKUA in Edmonton, the former said flatly that a third commercial license would not be granted to a government station or to a private one either.

What has happened to make the CBC reverse this policy so drastically? What pressure has been applied to cause the CBC to discriminate so rankly in favor of the 42,979 French-speaking persons of Alberta and to refuse a request made by the representatives of the 796,169 people of this province?

For the legislature, speaking for those 796,169 people, has not only asked for a license for CKUA but last fall unanimously opposed the request as requested for a French-language station.

There is room for another commercial license in Edmonton. But it should be given to the applicants approved by all the people, not to the applicants approved by less than five percent of them.

Protect Canadians From Quacks

A group of Australian doctors, commissioned by the government of New South Wales, has reported that no satisfactory evidence has been found that John Braund of Sydney can cure cancer.

In view of the fact that certain Canadian cancer victims have journeyed to Australia, at great expense, to undergo the ministrations of Mr. Braund, and since

others are likely to make the pilgrimage, the Canadian department of health would usefully supplement this Australian report with investigations of its own.

Certainly Canadian sufferers from cancer are entitled to more accurate information about the service given by Mr. Braund than that afforded by rumor and the zealot but ill-informed evidence offered by

newspaper columnists who they were cured.

If Mr. Braund has anything of value to offer Canadians should know about it. If he has nothing of value, they should be officially warned.

The duty of the Canadian department of health involves the protection of Canadians from quacks and the protection of their bodies from disease.

By Harold L. Weir

Looses Faith in Weather Sense of Furry Animals

My life has been permanently embittered during the past couple of months by the creature known as a weather forecast.

My childhood I was always one of those credulous persons who clung to the weather forecast with the fervor of the foreman of the weather.

I must confess that I still pretend to believe in the weather forecasts of the old time. I am convinced, as anyone who has seen the weather on the radio or in the papers would be, that it is a slight bit of luck followed by a high wind stroke me as a weather.

But I was a pushover for the weather forecast of the old time. I was a pushover for the weather forecast of the old time. I was a pushover for the weather forecast of the old time.

All right then. Early this month there was a story in this morning's newspaper, according to the Indians, the Old Times and the Little Furry Animals, that a male spring would come on March 28.

It did not. Instead, in the language of the weather bureau, masses of clouds had rolled down in this direction and snatched the sun between their fingers.

What lies these clumps be? Old Guff About Long Winters

I can remember the day when the weather bureau used to tell me that the weather was going to be a long winter. I can remember the day when the weather bureau used to tell me that the weather was going to be a long winter.

I can remember when it used to be bruited abroad that the poor Indian was laying in an extra supply of firewood for the fall and everybody would get an extra ton of coal.

Perhaps a friend would remark nonchalantly that he had been holding a couple of quack ones with a mouse and the mouse had been eating the quack ones.

Do I believe all that guff now? I certainly do not. I can remember the day when the weather bureau used to tell me that the weather was going to be a long winter.

So for a while, I have been making quack ones and things and making quack ones and things and making quack ones and things.

Dangers Lurk In Peaceful Sleep

If there appears to be small, leaden weights laming your eyes, if I greet your cheery hello with a discomfiting yawn or off into a fitful slumber, please place a fellow named Highe Lewman to come around and wake me up.

This fellow Highe Lewman (a portmanteau name, I assure you) holds the patent on a new method of sleeping he calls the Rotary Position System. With this system you can have not merely complete insomnia, but get permanently muscle-bound at the same time.

If all begins a few days ago when some reader sent me a copy of "Beauty Fair" with a P.M. marked for my attention. I was pretty busy at the time and, as luck would have it, I didn't get around to perusing Highe's jumble until just before climbing into the quilts last night.

I want it understood right away that normally, I never have any trouble sleeping. On the contrary, my only problem is getting awake. When I am tucked into my crib there is a silent little struggle and a hushed snore slowly forms over my head showing the fact that Highe Lewman is at work cutting through a log. It is so quick as that. Everybody tips-toes from the room with tread like water, and I am gone for nine or ten hours.

Whereas, I am a one-position man who wakes up in exactly the same spot and in the same position as when I went to bed. I imagine my horror, then, when I did not get up until just before climbing into the quilts last night.

I want it understood right away that normally, I never have any trouble sleeping. On the contrary, my only problem is getting awake. When I am tucked into my crib there is a silent little struggle and a hushed snore slowly forms over my head showing the fact that Highe Lewman is at work cutting through a log. It is so quick as that. Everybody tips-toes from the room with tread like water, and I am gone for nine or ten hours.

Whereas, I am a one-position man who wakes up in exactly the same spot and in the same position as when I went to bed. I imagine my horror, then, when I did not get up until just before climbing into the quilts last night.

Whereas, I am a one-position man who wakes up in exactly the same spot and in the same position as when I went to bed. I imagine my horror, then, when I did not get up until just before climbing into the quilts last night.

I want it understood right away that normally, I never have any trouble sleeping. On the contrary, my only problem is getting awake. When I am tucked into my crib there is a silent little struggle and a hushed snore slowly forms over my head showing the fact that Highe Lewman is at work cutting through a log. It is so quick as that. Everybody tips-toes from the room with tread like water, and I am gone for nine or ten hours.

MUSIC

Major and Minor Notes

By H.D.S.

News this week is all of choral groups. Canadian National Recreation Association Glee Club is to hold its second annual concert on Friday, April 2, in the Auditorium of Central United Church.

This Glee Club is under the direction of W. Smith. It was organized in September, 1946, and has made rapid strides since its inception. A well-chosen and varied program is to be presented, one feature of which will be excerpts from Wagner's "Tannhauser".

There will also be vocal solos by Leonard Barnes, former director of the CNR Glee Club at Montreal, N.B. and Great Verchom, violinist, pupil of Randall Sheen.

There will also be vocal solos by Thelma Rice, Mrs. A. Waterspoon and W. Smith; and vocal duets by Thelma Rice and Catherine Clark, and W. Smith and W. J. Angus. Accompanists for the evening will be Betty Mae Smith and P. J. Delicate.

Third annual concert of Woodward's Choral Society will be presented at the Masonic Temple, March 30 and 31. The program promises to be one of exceptional variety with solo selections by Randall Stevens, baritone; Arthur Williams, boy soprano; and with selections by the RCAF Band sextet. The sextet is composed of a flute, three clarinets, French horn and string bass, and is directed by W. J. Carl Frisberg.

The choir will sing three compositions by Sir Edward Elgar.

Two Crewmen Lose Life and Death Race

CLEY, Norfolk, England, March 27.—(CP)—Two seamen died in hospital Friday after sinking "Now Is the Hour" to keep up their spirits during a six-hour life-and-death race for port.

Engineer J. Young and Fireman E. Pratt died from burns and shock received when the RAF salvage dory, *Katrine*, exploded eight miles off Cley. A third crew member suffered severe burns while seven others escaped unhurt.

During a spring shower residents of the eastern part of the city were drenched with it. It disclosed umbrellas, clothing and left a greenish tint on white-painted houses.

Local scientists could not explain it. Some thought it might be chlorophyll, the green matter of plants. Another observed it might be green pollen, others believed it might be green algae, which in some way had found their way into a rain cloud.

The "green" fall was not prevalent over all the city. It was in the section in which it fell it soon washed away.

Local scientists could not explain it. Some thought it might be chlorophyll, the green matter of plants. Another observed it might be green pollen, others believed it might be green algae, which in some way had found their way into a rain cloud.

AREA OF GLASGOW IS SCENE

Tenement-Life Play Is Hailed in London

By MICHAEL O'MARA

LONDON, March 27.—(CP)—Most-talented play in London's west end this season is "The Gorbals Story," a "slice of life" play about the tenements and backstreets of Glasgow.

The Gorbals is an over-crowded slum area and if the play has a moral it is that housing must come first on any program of national rehabilitation.

The dramatic story in character, is enacted by the Glasgow Unity Theatre, a "Little Theatre" group who seem fairly surprised to find they have made their way

into the etatdel of the English stage and react, as the Times of London critic put it, by being "inclined to shout, perhaps for fear of not being heard in a large theatre."

It was written by Glasgowian Robert McLish, described by Punch's critic as "a young dramatist with something burning to say but who says it without preaching, in the ordinary language of human tragedy, courage and kindness."

McLish tells his story in vignettes—of the middle-aged prostitute who loves children, of the humorous old lady who has seen better days and intends to

see them again, of the young couple searching for even a rat-infested room in which to live, of the drunkard who would have won thousands of pounds in a football pool except that he forgot to buy his ticket.

Most play-goers detected a similarity in treatment to that used by Sean O'Casey in his Abbey Theatre classic "The Plough and the Stars." But though "Gorbals" is set in a tenement and tells the story of down-and-out, it has neither the strong underlying nationalistic impulse nor the past-master's delineation of character that marked "The Plough."

including the noble work, "The Fedra" and "A Poor Man's Garden."

The most interesting ensemble of wind instruments and string bass have arranged the slow movement of Beethoven's Second Symphony. They will also play "Tannhauser" by Wagner.

Edmonton will be proud of both the quality and quantity of its choral organizations.

The enjoyment of music is not by any means necessarily a passive form of pastime. Some degree of training is required before it is possible to take part in the making of instrumental music. But anyone who "has an ear," and a sense of rhythm may participate in a choral ensemble and it is surprising what splendid results can be achieved. A good director who has artistic insight, even by groups who have no previous experience in vocal instruction whatever.

The instrumentalist, on the other hand, is faced with a more difficult task. He must have a good ear, and a sense of rhythm, and a knowledge of the principles of music. He must also have a good understanding of the principles of music, and a good knowledge of the principles of music.

The instrumentalist, on the other hand, is faced with a more difficult task. He must have a good ear, and a sense of rhythm, and a knowledge of the principles of music. He must also have a good understanding of the principles of music, and a good knowledge of the principles of music.

Dog Stands Guard Over Dead Master

VANCOUVER, March 27.—(CP)—The fire-black dog, Camille Vanderput, 80-year-old widower yesterday was found near his isolated home in nearby Burnaby municipality. A huge dog, part wolf, stood guard over his dead master.

Police believed the strange pensioner died more than 24 hours earlier from flames which consumed all the clothes on his body.

band, has to go through a rigorous course of technical development before he can even begin to create musical sounds which the rest of us would like to listen to.

And yet there is much to be learned in the study of the violin, or flute-player, or whistler, in just reading music for the sake of the playing. It is a pity more people do not take up the violin or the woodwind for that reason.

Very much the same sort of social enjoyment can be derived by an amateur string-quartet group as it today commonly got from an evening's bridge game.

The idea may seem a strange one here in Canada. Yet there are many communities in the United States where the playing of this sort of social pastime is indulged in quite regularly.

"A Little Night Music," that delightful little American book with the many to be read, and a few volumes of Haydn or Beethoven quartets in place of the woodwind.

The broadcast last Wednesday night of the complete performance of Bach's "St. Matthew's Passion" seemed to mark a milestone in the history of Canadian music.

Toronto's Mendelssohn choir, and Toronto Symphony orchestra were under the direction of Dr. Ernest MacMillan.

The late Hector Charlesworth, editor and music critic of "Saturday Night" used to claim that the Mendelssohn choir gave a rendition of this mighty work which was second to none on the North American continent. Yet how many of us outside Toronto have ever seen or heard an opportunity to hear an outstanding Canadian achievement?

Thanks to the CBC the entire three-hour performance is made available to Canadians from coast-to-coast on Wednesday night presentation.

One wonders why a Commercial recording is not undertaken of the Mendelssohn choir's interpretation of the "St. Matthew's Passion." This is probably Canada's outstanding musical achievement. To record the Toronto performance would provide this country with the recognition it deserves in the world of music.

including the noble work, "The Fedra" and "A Poor Man's Garden."

Little Hope Seen Palestine Plan

Arabs and Jews Expect To Have "To Fight It Out"

LAKE SUCCESS, March 27.—(AP)—Despite President Truman's appeal, doubts were expressed today that the United Nations would accept the new United States proposal for settling the Palestine problem.

Both Jews and Arabs are opposed to the true-and-trustworthy scheme. The Russian bloc and some smaller countries, including several Latin American republics are reported ready to fight any move to sidetrack the partition plan.

One American hope rested in Delegate Warren R. Austin doing a job of explaining and convincing before and during the next Security Council meeting Tuesday.

The American delegation here said it had received no instructions from Washington and closed up late today for the Easter weekend.

Commenting on the American proposal, as amplified by President Truman in his press conference, a person close to top Jewish Agency officials said: "This means nothing will be done and the Jews and Arabs will fight it out."

Delegate Arie El Khoury of Syria, chief Arab spokesman here, said: "As long as Mr. Truman says it (the plan) will not replace partition, the Arabs are not ready to accept the plan or any part of it."

The American plan is now divided into four parts: 1. A truce: The Jews won't accept unless it is instituted specifically to enforce partition; the Arabs won't accept unless partition is

Knux United Church Choir Will Present "OLIVET TO CALVARY" (MATTHEW 26)

Soloists: Mrs. D. McLelland, Soprano, Wm. Smith, tenor, C. Olson, baritone, and J. Williams, bass.

EVERYBODY WELCOME!

GEMS FROM SWEDENBORG:
(1) No law of the Divine Providence that man should not be subject to natural needs to think and will, and thus to be free. But love the Divine religion, that should guide himself, not someone else's line.
(2) No one is returned by miracle and signs, because they are not needed for conversions with the truth and punishments because they compel.
(3) No one is returned by threats and punishments because they compel.
(4) No one is returned in states that do not spring from rationality and liberty.
(5) No one is returned in a state of fear.
(6) No one is returned in a state of malice.
(7) No one is returned in a state of bodily desire.
(8) No one is returned in a state of anger.
(9) No one is returned in a state of love of the understanding.
(10) The Gospel message is not contrary to rationality and liberty.
(11) The external man must be reformed by means of the internal man, and not the reverse.
(12) The Divine Providence.

Greek Guerillas Put to Death
Fifteen Pay With Lives For Shelling of Salonika
By Dan L. Thrapp
SALONIKA, March 27.—(AP)—Fifteen unkept Greek guerillas who helped shelling of Salonika six weeks ago were executed by firing squads today as a bloody dawn routed the shadows from a sixteenth-century citadel frowning down on the death scene.
The guerillas crumpled under the volleys which rattled through a nearby grove of young apple trees riotous with the delicate pink blossoms of early spring.
They did not die easily. Many had to be finished off with tommy guns. To a man they stood erect, eyes unbated, to receive the bullets.
The 15 were among 52 of 111 captured guerillas who were sentenced to death a week ago by a special court martial after a 23-day trial. The sentences were subject to review, and today only 13 had been confirmed.
It was a miserable day, to die or to live. Dawn brought low clouds and a chilling drizzle. And it was the bleakest of execution grounds, under the shadow of the citadel now used as a military prison high upon overlooking Greece's second city. The apricot blossoms were in such stark contrast that they looked like an artificial setting.
Before daylight an ancient, bearded priest called on the condemned men, praying with each. It was their first sign that this was their day to die. He fulfilled such final requests as he could—writing letters for some, giving others cigarettes or drinks.

Christian Science Services Sunday
"Reality" will be the subject of the lesson-sermon in Christian Science churches Sunday. Here are significant passages which will be read on this theme: "For since the beginning of the world men have not heard, nor perceived by the ear, neither hath they seen, O God, neither they, what he hath prepared for him that waiteth for him." (Isaiah 64:4). "Spirit and its form are the only realities of being."

Bishops Invited Attend Conference
Dr. Geoffrey Francis Fisher, Archbishop of Canterbury, has invited four bishops of the Nippon Seikwaiki (Holy Catholic Church in Japan) to attend the Lambeth Conference here next July. The Lambeth Conference is the world's ecclesiastical body of the Anglican communion.
Because of the "present confused situation" in Germany, the local churches in that country are invited to group together and assign twenty places at the first assembly of the World Council of Churches in Amsterdam, Holland, next summer. It was announced by Dr. Herbert Newell, associate general secretary of the council.

Civil Marriage Provision Urged
A resolution calling on provincial legislatures to make provisions for civil marriage was adopted at Toronto by the board of evangelism and social service of the United Church of Canada.

Religious Issue Looms in Britain
Proposals made in the House of Lords that free churches be given representation in that body are likely to inject a religious issue into plans for the reform of Britain's top legislative chamber. Heretofore, only bishops of the state-established Church of England have occupied seats in Lords.

Coventry Cathedral Lendowment Offered
Lord Kailworth, prominent British industrialist, has offered the government security to the nominal value of £100,000 (about \$400,000) as a special endowment to Coventry Cathedral when reconstruction of the historic Anglican sanctuary, which was destroyed during the war is completed.

Arabs Will Fight Foreign Forces
CAIRO, Egypt, March 27.—(AP)—Dr. Yacoub Khoury, official spokesman of the Palestine Arab higher committee, said Friday that Arabs would "fight any foreign force that enters Palestine."
His statement was prompted by the Jewish agency proposal for transfer of 10,000 Danish and Norwegian troops to protect holy places in Jerusalem.
Khoury also recalled that "readers of the Arab countries have stated their regular troops will enter Palestine if any foreign force lands there."
Steelworkers having been asphyxiated in 1943.

Investigation Asked Into Death of Four In Big Steel Plant
BETHLEHEM, Pa., March 27.—(AP)—President Philip Murray of the CIO United Steelworkers said today that "criminal negligence" was responsible for the death of four men showered with hot coke at the Bethlehem Steel Corp. plant here.
The union leader wired District Attorney Jacob K. Sullivant a grand jury investigation of the Wednesday furnace blast.
"Those responsible for this horrible tragedy must be brought to justice," said Murray in charging that the blast points to lack of adequate safety regulations. He said it was the second fatal mishap at the plant in three years, each at the plant in three years, each

Anti-Ret Czech To Retain Files
NEW YORK, March 27.—(AP)—Dr. Jan Papanek, ousted anti-Communist Czechoslovakia delegate to the United Nations, said last night he refuses to turn over official files to his Prague-named successor.
Papanek said the lease expires on his New York office April 1 and that he is taking smaller quarters in the same building. He said he is retaining all records.
If necessary he said he would dip into his personal funds.
Papanek was dismissed after demanding that the UN Security Council investigate Russia's role in the Communist attack on Czechoslovakia. The UN refused to accept his complaint and was filed formally by the government of Chile. The case now is being heard at Lake Success.

NORDHEIMER EXPANDS SERVICE

Machine Shop Foreman

ARTHUR PEGG

Mr. Pegg has had many years of experience and is an expert in the Hydraulic field. His vast knowledge is at the service of all our customers.

Here is a view of our new main plant and the large staff now employed by Nordheimer Manufacturing Co., Ltd. This entirely new plant covers an area of more than 16,800 square feet, and is equipped with the latest types of machines to take care of all the varied needs in manufacturing Road, Farm and Industrial equipment. Nordheimer's plant today is one of the largest and finest in Western Canada, and their expanded service will easily take care of all orders and requirements on the prairies. Note—The smallest Caterpillar manufactured is pictured at the front of the building, while at the extreme left is shown the largest and most powerful Caterpillar ever built. This latter machine is now owned and operated by Howlett & Osmack, Mining and Construction firm of Edmonton. "We Equip Them All—The Big and the Small."

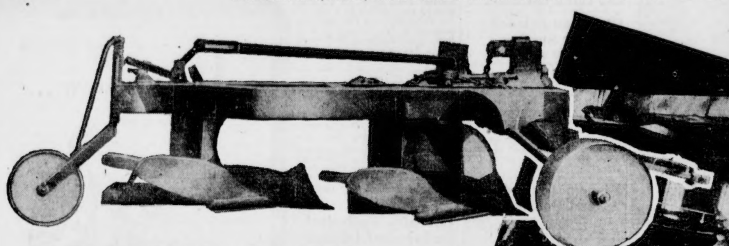

Chief Engineer

ORVILLE HOBBS

Mr. Hobbs' experience in the engineering field is well-known in Western Canada. He is an experienced draughtsman who can map out your plans for all your requirements in heavy machinery.

"On-the-Cuff" Deal

By Stan Mohr

En route with the Flyers Friday: The "Flyer Special" has just passed through Red Deer, and the boys are well settled for the over-night run to Nelson and Trail.

A variety of card games are in progress. Deep in a cribbage scramble are Louis Holmes, Bud (Boomer) MacPherson, Alec Pringle and Johnny Black. From the chatter we gather that MacPherson and Black are in league against the other two. Also we gather that this is one of those "on-the-cuff" deals. There isn't a sou in sight.

At the other end of the car the boys whose fancies run to filling inside straight—trying to pull a pigeon! It's called in some circles—and other manoeuvres went at it with a cold deck not long ago.

Couch Frank Currie is riding high on this battle of the pasteboards. In against him are Doug Lane and Morley Blumstein, a pair of American Hockey League expatriates, Fred Smitten and Bert Vonal, city sportsman, who came along for the ride.

Lane invited us in. "You'll never make money any easier," he coaxed. We declined. An expense account would look pretty funny carrying an item "poker losses" \$4.85.

Besides its gambling, and that's against the law—

Old Invaluable Looms

The inevitable argument is about to break out with Andy the Scientist. He's taking issue with the effect that "sinners make centres—and all that." He's taking issue with the effect that "sinners make centres—and all that." He's taking issue with the effect that "sinners make centres—and all that."

Wider literary circles are in a confused state because of Temple Balle. Everyone is to his own taste, though even if it does mean wrestling with his spouse.

Miss Smith is taking pleasure from a tiny radio. "Wonder how the poor people are getting along?" someone asked him. The answer from the club was hard-earned and turned out to be a little louder.

Judging from the front curtains of silence about their births Bill Maher, Elmer Kitch and Gordon Watt, making up for some shuttles lost along the way.

The lone four note concerto Al Rollins. The demon puckster is a little under the weather. He's been taking it easy ever since the train pulled away. Even the driver had no lure.

He'll be okay, "said Doug MacPherson.

After Four Straight

In other words, Flyers' way of going while on the road is standard for hockey teams the country over. The long hours have to be in. Card games are in progress and the players are as good as any to pass the time.

The male objective isn't being forgotten. Of this you can be certain. If the smoke clears, a knock-out in four straight that's how it's going to be.

Majority of the present Flyer camp have never been in the "hat-box" of a rink. Lane, Pringle, Smitten, Young and Maher would be the exceptions.

Most members of the top team in the Western Canada hockey were frankly surprised when Terry Cavanagh, Jimmy Anderson and the rest of the Smoke Eaters ran the Kimberley machine into a blind whiff.

"They don't have too much on paper," seems to be the point of view. "Nevertheless, they can't take any chances with them."

Gordon Watt was talking about the current edition of the Flyers. "It's a three-man team," he said with authority. "This is the best of the three clubs though the one which lost to Calgary two years ago in the league final (Bob Carson, Don Stanley, Johnny Kennedy, Jack McDonald, et al) was a real hockey team. We're better balanced this time."

Right now Flyers are just their third winning series away from the Allan Cup. The ring is in sight.

After a 50-minute layover in Calgary it will be onto British Columbia with a vengeance.

51?

Aging Boxers Remain High Up in Ratings

WASHINGTON, March 27.—(AP)—Prize Fighting has turned into a nice racket for the old folks, and the National Boxing Association doesn't like it.

NBA came out with its quarterly ratings Friday. With the ratings came this complaint from President Abe J. Greenbaum.

"Too many youngsters are in and out of the ratings. They're floundering in the past, while ratings are high. It's like Joe Louis, Jerry Jones, Walcott, Gus Leonard, Tony Zale, and others."

Joe Louis, Tony Zale, and others. "It's like Joe Louis, Jerry Jones, Walcott, Gus Leonard, Tony Zale, and others."

Three other champions—light-heavyweight Lamorne, heavyweight Orin, and lightweight Billy Watson—were rated over 30.

The ratings: Champion—Joe Louis, Michigan, 30; Outstanding boxer—Eugene Smith, 29; Outstanding boxer—Eugene Smith, 29; Outstanding boxer—Eugene Smith, 29.

Light-heavyweight Lamorne, heavyweight Orin, and lightweight Billy Watson—were rated over 30.

GREEN ROOKIE HOTTEST THING IN PHILLY CAMP

CLEARWATER, Fla., March 27.—(AP)—Rickle Auburn, a rookie outfielder who still belongs to Toronto Maple Leafs of the International League, is the hottest thing in the camp of Philadelphia Phillies.

The fleet fly-chaser has eluded Curt Simmons, the \$65,000 bonus pitcher out of the headlines. Of course, Simmons is sure to tick him a starting pitcher in the next day's game.

Things that Auburn is the surprise of the spring. It could be that he will open the season in the Philly outfield.

PUNCHES TO ALL F.I.E.D. In his first game at bat, 21-year-old Auburn has been on base 14 times. A Jack rabbit on the field has been punched to all fields against all kinds of spring pitching, and some of the boys have been to throw curves.

Ed Loat, New York Yankee's prize pitcher, has been on base 14 times. A Jack rabbit on the field has been punched to all fields against all kinds of spring pitching, and some of the boys have been to throw curves.

Rookies Spark Red Wings To 5-2 Win Over Rangers

DETROIT, March 27.—(CP)—Rookies Jimmy McFadden and Marty Pavelich plunked in two goals apiece here Friday night as Detroit Red Wings took their second straight National Hockey League playoff victory over New York Rangers 5-2 before 12,833 fans. Detroit now leads the best-of-seven series 2-0.

With Detroit needing just two more victories to clinch a berth in the Stanley Cup final, the scene shifted to New York for third and fourth games Sunday and Tuesday.

The Rangers were full of fire but made a match of it only for one period and Detroit, a heavy favorite, never trailed.

McFadden's first goal came on a winning dash between the Rangers defense and the boards that put him into the clear to score just four minutes after the game opened.

Ed LaPrade, Ranger center, tied it up after 10 minutes of rough play which followed, but McFadden and Pavelich scored in the second period and the Red Wings won 5-2.

MANITOBA GOLF TAX ON VOLUNTARY BASIS

WINNIPEG, March 27.—(CP)—The Manitoba Golf Association agreed to the \$1-a-year tax proposal made some months ago by the Royal Canadian Golf Association, but the set-up is strictly voluntary so far as clubs affiliated with the MGA are concerned.

At its annual meeting, the provincial body declined to request all affiliated clubs to assess their members \$1 to the plan the association will underwrite the fee for the current golf season. If any clubs fail to subscribe.

Under the RCGA plan, 50 cents of this money goes to their association while the other half goes to the provincial government.

On acceptance of the plan, the Dominion body pays the entire bill when provinces compete in the Willingdon Cup and junior championships.

Big Moments in Sport

25 Years Ago

(From the Bulletin Sports Files)

A field of nine got to the top post for the feature Western Canada Breeders' stakes at Edmonton Exhibition track this year. Entries include Coming Up Babe, Mountain Chief, York Belle, Little Evelyn, Black Naven and Fat H.

W. R. "Toby" Sessmith of Portage La Prairie, was elected president of the Canadian Amateur Hockey Association. Other new officers include: S. P. Quigley, Ottawa; vice-president; Fred Marples, Winnipeg; secretary; W. A. Hewitt, Toronto; Dominion registrar; and Murray Thompson, Moose Jaw, M. C. McKague, Port Arthur, and S. G. Holland, Montreal, registration committee.

SANDBERG TO PLAY FOR BOMBERS AGAIN

WINNIPEG, March 27.—(CP)—Towering Bob Sandberg, sensation of the 1947 Canadian football final, has informed Winnipeg Blue Bombers that he will line up with them again for the 1948 Western Interprovincial Rugby Union season, president Art Chipman announced.

Chipman said the big backfield, resident sought by clubs in Eastern and Western Canada after his spectacular showing in the final against Toronto Argonauts, had informed Bombers in a letter of his intention of returning.

Bus, Truck Use May Cost More Measures of Nationalization Still Are Being Studied

By Stuart Underhill
LONDON, March 27.—(CP)—Bus and truck transportation, traditionally cheaper than railways, may cost more when measures to nationalize transport are completed.

"It's one possibility," explained Sir Cyril Ilmer, chairman of the transport commission, admitted at a press conference when a question as to whether there was likely to be an equalization between road and rail rates.

He added, however, that at this early stage the commission could not commit itself to a policy on "a question that requires careful examination."

Sir Cyril, who called the press conference to announce the personnel of the executive branch which will control road transport, said that its first task will be to "alter" of road and rail services on the goods (freight) side.

LONG-DISTANCE HAULING
When the commission takes over Britain's railway system last Jan. 3, it acquired a number of long-distance haulage companies, including the railway, it is now studying the acquisition of other long-distance haulage companies.

"Negotiations are bound to take place in the present year," he said. "We hope to complete the process in two years but some feel that it may take longer."

For purposes of administration, Britain is being divided into divisions, which in turn are divided into districts, responsible for operations in their immediate area. A similar system will be applied when passenger services are taken over.

Some 2,500 companies operating more than 20,000 trucks are affected by nationalization. They are owners of vehicles operating out of a 25-mile radius, or for distances of more than 40 miles within that radius.

In addition to railways and road undertakings, the commission has authority to control canals and harbors.

**Talks on Kashmir
End in Stalemate**

LAKE SUCCESS, March 27.—(AP)—Private United Nations negotiations over settling the dispute in Kashmir ended today in a stalemate.

Indications were that the dispute between India and Pakistan eventually would be thrown back to the Security Council for solution. The Indian and Pakistan delegations confirmed that the further talks are scheduled.

Council President T. F. T. of China cancelled a Monday conference meeting on the case. No date was set for resumption of conference.

Differences between the two dominions centre mainly around the presence of Indian troops in Kashmir and holding of a plebiscite to decide on accession to India or Pakistan.

EISENHOWER URGED SEEK NOMINATION

NEW YORK, March 27.—(AP)—Franklin D. Roosevelt, Jr., and his older brother Elliott, yesterday called on Gen. Dwight D. Eisenhower to seek the Democratic presidential nomination.

Such an action, the sons of the late president said in separate statements, would link Conservative and Liberal elements in the United States.

At the same time they criticized both the Third Party movement of Henry Wallace and the leadership of the Republican party.

THE PRESTO COOKER BRINGS MAGIC TO YOUR KITCHEN

Presenting the new 6-quart Presto Cooker and Canner. See the demonstration of this NEW cooker in the Housewares Department commencing Monday, March 29th. Demonstration will be given four times daily—10:00 a.m., 12:00 noon, 2:00 p.m. and 4:00 p.m.

See a whole complete meal prepared with the Presto Cooker. See also how easy it is to preserve fruits and vegetables.

Indonson's Bay Company
INCORPORATED 27th May 1918

GRANDEST LITTLE LADIES in the Easter Parade in Edmonton will be Linda Ross, left and Penny Crockett, modelling what the well-dressed little girl is wearing this spring. Their gay-colored anointed frocks were made by Linda's mother, Mrs. John Ross, who with Mrs. Tommy Barford, is conducting a series of classes in the art. Nearly 50 hours of work goes into each little dress. (See story page 15.)

Playgrounds For Edmonton

Nearly \$75,000 will be spent by Edmonton on parks and playgrounds in 1948.

Estimates handed down today net \$10,000 for playground buildings, \$5,000 for equipment, \$4,000 for wading pools and \$2,000 for grounds.

Comfort stations will be built in Borden and Queen Elizabeth parks and at Clarke Stadium. Each will cost \$5,000.

Dressing rooms at South Side park will be built at an estimated cost of \$10,000.

New parks will be set up on Martin estate, at 100 street and University avenue, and on site of old Donald Ross hotel.

Kiwanis Club To Be Addressed By Harold Weir

MONDAY—Kinsmen, Kinsmen, Tuesday, Cosmopolitan, Y's Men's Club.

THURSDAY—Rotary, Optimists, Lions.

FRIDAY—Gyro.

Significance of Easter will be the subject of an address by Harold Weir, OBE, to members of the Kiwanis Club, Monday night in the Macdonald Hotel. Easter music is included in the program.

Postponed meeting of the Kinsmen Club will be held at 6:45 Monday evening in the Macdonald Hotel, when films on the Canadian Open Golf Tournament and trout fishing will be shown.

Regular Tuesday meeting of the Gyro Club has been cancelled in favor of the annual installation dinner and dance in the Macdonald Hotel.

Club affairs of the Cosmopolitan will be discussed at the regular meeting in the Corona Tuesday noon.

Joe K. Smith will address the Y's Men's Club on early days in Edmonton at their meeting 6:15 Tuesday in the YMCA.

W. J. Dick will speak on the exporting of natural gas from Alberta at the Rotary Club meeting Thursday noon in the Macdonald Hotel.

Feats of legdeman by magician and Sackler will be featured at the meeting of the Little Club Thursday noon in the Macdonald Hotel.

Also Thursday noon, members of the Optimists Club will hear annual reports on the progress of their club, and install their new officers.

Edmonton City of Light

Edmonton will become the city of light in 1948.

Nearly \$100,000 will be spent during 1948 to intensify artificial lighting leading into the city and for general street lighting.

Underground installations for lighting systems will require one-half-million dollars to be used for manholes and vault construction and extension of the distribution system.

Another \$250,000 will go to buy transformers and meter.

Power plant estimates include \$75,000 for water treatment plant and \$14,000 for expansion.

Money Stabilizing Planned by China

NANKING, March 27.—(AP)—The state council said Saturday a program for stabilizing China's inflated currency had been worked out which involves using \$300,000,000 worth of assets in government-owned companies, members said privately. The plan came directly from Generalissimo Chiang Kai-shek. It will become effective when the council gives its final approval. All sales would be to private individuals.

Death Claims Pioneer

Death claimed a prominent old-time resident of Edmonton Friday in the passing of George Law, 1350 9th street, who died in hospital, following a lengthy illness.

Mr. Law was 81 years of age.

Coming to Edmonton as a young man from Manchester, England, Mr. Law farmed for a time in the Redwater district.

He was employed by the provincial government at the time of the first session of the legislative assembly in 1905.

Later he was connected with the firm of Neilson Bros. in Edmonton.

In more recent years he was associated with his sons in the city business.

Mr. Law took an active part in lodge affairs as a member of the Royal Order of Buffaloes in Alberta.

He is survived by two sons, Thomas and Walter, and one daughter, Mrs. J. Gerow, all of Edmonton, and a sister, Mrs. M. Wood, of Calgary.

Funeral arrangements are under direction of Foster-McGregory.

Ladies' Ball Club Holds First Practice

First practice of the season for the Ladies' Ball Club will be held Tuesday at 8 p.m. at the Eastwood School gymnasium.

Stew McGrevery will coach the club and Ernie Jackson is manager.

All positions on the club are open and anyone wishing to try out with the team is welcome to attend.

'PHONE EXPENDITURES RUN OVER A MILLION

Telephone expenditures by the city of Edmonton will total \$1,120,525 in 1948.

Council today received estimates which include expenditure of \$607,383 for central office equipment and \$55,000 for extension of the South Edmonton exchange.

Private automatic branch exchanges will cost \$32,750. Construction costs are expected to reach \$823,088.

U.S. Air Force Officer Beats House Shortage

An "Alaska or Bust" car-trailer combination attracted both unfavorable and favorable attention in Edmonton Friday.

Undesirable attention was focused in a red "lucky" on the windshield, gift of Edmonton police force, who found the duo in a bus zone.

Driver of the auto is Lieut. Willis L. Warner, U.S. Air Force, who is journeying from his home in Long Island, New York, to Fairbanks, Alaska.

Warner has been posted to Alaska by the Air Force where he expects to live until 1950.

He is making the trip alone although he expects his wife and two-year-old daughter to join him later by plane.

Purpose of the trailer is to beat the housing shortage he expects to find in Fairbanks.

Eleven days en route so far, Warner expects to hit Fairbanks by April 2—or bust!

Emergency equipment for the long journey north includes spare tires, gasoline, engine parts, oil and emergency food rations.

The trailer, too, is well equipped for the voyage north. It contains three rooms, oil heater, bottled gas stove and a refrigerator.

IT'S NATURAL FOR HIS NAMES

BATON ROUGE, La., March 27.—(AP)—Stanford, Duke, Tulane, Harvard and Princeton now are playing in a league all their own.

All last, they will be as soon as Princeton gets a little older. He was born only last week.

They are all the children of Stanford Barfield, Sr., who says that the idea of naming his children after universities is natural. His wife's name is Layla.

City Will Spend \$647,160 in 1948 On Transit System

Transit system estimates for Edmonton total \$647,160 to be spent in 1948.

New buses, electric and motor will take \$300,000.

Conversion of city lines will call for line construction costing \$100,000.

New lines will go on in 101 street and 107 avenue to 124 street conversion, and north on 124 street from 101 to 115 avenue.

Truck and line work, including the removal of abandoned tracks and centre poles from Jasper west of 107 street will cost \$45,000.

Atlantic Well Still on Rampage

Over 21 Million Cubic Feet of Gas Lost So far

Gas still flowed unabated from Atlantic Oil Company's No. 3 well today.

Wary crews and officials have been struggling to control the well since Sunday afternoon when a fracture occurred in the surface casing and gas began to escape from cracks and holes in the ground as far as 250 yards from the derrick.

At the time crews were conducting the hole after a rampage three weeks ago that wasted an estimated 15 million cubic feet of gas and 700 barrels of crude oil.

No loss of oil is involved in the present blow as it is believed to originate in the Viking sand.

It is estimated that the present daily loss is better than 3 million cubic feet although an accurate check is impossible due to the area in which the blow is occurring.

The offending gas set fire to the home of William Cusick, 7619 112 Ave., about 7:10 p.m. after it had been left sitting by the stove.

Even Crime Took Holiday

Crime took a holiday Friday. Police reported only three complaints during the day.

Theft of \$22 was reported by Joseph Steiner, 10140 101st St., told police that sometime between 8 and 10 p.m. his store at the above address was entered.

Messner said \$11 was removed from the store till and another \$11 from his wife's purse which was in his residence at the rear of the store.

John E. Long, 10846 95 street told police he foiled an attempt by two men to steal gasoline from his car when he investigated a noise at the rear of his home Friday night. Long reported finding a five gallon gasoline drum and a six-inch rubber hose leading to the gas tank of his car to the drum.

FIRECRACKERS CAUSE HAVOC

Irresponsible youths with firecrackers set a city home on fire Friday.

Mrs. D. O'Brien, 12775 118 street, told police window curtains in her home were set alight by firecrackers, which two boys tossed in the open window.

The blaze was extinguished before any serious damage was done.

Dead at 57

SHOPPING GUIDE

Spring Best Time To Replenish Linen

By Bea Thrifty

Easter Bunny has practically had his time for another year.

Tonorrow morning will see small fry looking for the goodies Master Rabbit left for them. Bunny may have delivered them, but Mother certainly paid a pretty penny for those chocolate delights. Most kiddies will have a meagre supply, I'm afraid, with one undersized egg costing 15c.

Most linen cupboards need replenishing about once a year—and now seems as good a time as any.

Sale of Irish linen linen work clothes—regular, 52¢-sale price \$25.50—will be held Monday, Tuesday, 7p to 9p and a beautiful suit \$25.00 to \$30.00.

And if you and your budget prefer Irish linen dress clothes—these are also on sale come Monday.

Spring-time is flower-time and you can grow your own narcissi and tulips right in the house. And, to contribute to the colorful scene are pretty pastel clay bulb-bosses, selling for 5c.

Baked Alaska always a favorite party dessert and the simplest thing in the world to make—if you know how. Recipe is a gem from a mother whose daughter was demanding this delicious confection—and Mother didn't quite know where to begin.

So here it is: For individual servings, cut squares of cake slightly larger than slices of ice cream. Place ice cream on cake slices. Beat egg whites (3 to 4 to 1) to stiff peaks, very stiff, adding icing sugar to taste.

Cover ice cream with meringue. Place in very hot oven (500-550 degrees F.) for about two minutes. Serve when cooled. Meringue prevents heat from reaching ice cream, so it is important to see that the ice cream

The Gracious Dance Is Always in Demand

What makes a girl popular anyway? Maybe because she's fun to dance with, because she has perfect rhythm and grace plus feather-light responsiveness to every step and turn.

A large order, but you can fill it if you have balance. And if you know the latest dance steps.

Balance means, essentially, your weight evenly over the balls of your feet. In stepping backward, for instance, keep your weight on the ball of the forward foot until your stepping foot is in place, ready to share the weight.

Also, swing from the hip and reach back as far as possible, with the toe. Chopping off those backward steps is just leaving your partner to tread on your toes.

To be a good dancer, you must be able to do the rumba, samba, fox-trot, lindy-hop, waltz, with equal ease.

Our Reader Service booklet No. 37 teaches the latest steps by means of footprint diagrams and actual photos. The author is one of the country's well-known instructors.

Get your copy today and be the star-eyed miss who staggers the boys.

Send 20 cents (coins) for "How To Be The Latest Dance" to the Edmonton Bulletin, Reader Service, 60 Front St., W. Toronto. Print name, address, booklet title and No. 37.

All But Air Mail To Palestine Halted

WASHINGTON, March 27—(AP)—The United States post office department late Friday suspended all airmail service to Palestine except for air mail. The department previously had stopped shipment of United States insured parcel post boxes to Palestine for the time being. It also had halted money orders addressed to residents of Palestine.

2 Persons Killed By Police Bullets

BOMBAY, March 27—(AP)—Police killed two persons during a Hindu-Muslim riot Thursday in Bombay, 250 miles north of London. The times of India reported Friday it was the first such clash in western India since the funeral of Mahatma K. Gandhi. Nine persons suffered stab wounds. Two policemen were reported in critical condition.

Believed Oldest Engineer, Is Dead

WHITEHALL, N.Y., March 27—(AP)—William L. Fisher, 96, oldest member of Division 37, Brotherhood of Locomotive Engineers, died Friday. Fisher was believed to be the division's oldest member both in years and length of membership. He joined 26 years ago. The brotherhood division includes Canada, the United States and Mexico.

U.K. Is Planning Substitute Cottons

LONDON, March 27—(AP)—The Raw Cotton Commission announced Friday night that British spinners may substitute American and other cheaper grades for Egyptian cotton. The commission said it would meet again today to look at raw cotton imported to Britain.

is completely covered with meringue.

If friend husband is all eager to whip up a cake or two—start him with the prepared cake mixer. You can buy packaged ingredients for 35c, white or spice cake for 31c.

To cut butter into smooth slices—fill a piece of waxed paper or other wrapping over the cutting edge of a table knife. Cut thin even slices, changing paper if it gets sticky. Use firm but not hard butter.

From this step it's easy to cut the butter into desired size serving patties.

For a delayed Easter gift wouldn't it be fun to get a travelling kit filled with your favorite brand cosmetic essentials. There are some of simulated leather in green or brown, selling for \$7.50 and \$10.

DOROTHY DIX SAYS—

Brains, Not Beauty Best Feminine Asset

DEAR DOROTHY DIX: I am in love with a girl who is beautiful and amiable and she fascinates me, but she hasn't a brain in her lovely little head.

She never reads anything, she never thinks of anything but the most obvious everyday things. I haven't an idea in common and I can only talk to her as I would to a child.

Yet I am always thinking about her, always longing for her when I am away from her.

Would it be safe in marrying this girl, or is this attraction she has for me merely physical?

JOHN D.

ANSWER: It is because to many men mistake physical attraction for

love that we have so many faithless husbands and so many divorcees.

A physical attraction is the fairest thing living thing in the world. It dies of satiety.

The house of happiness that is built only on thrills is bound to tumble down because it has no foundation.

If love is to endure, the man and the woman must speak the same language, care for the same things. They must interest and entertain each other.

Heretofore breaks up more homes than all the combined vices of the stage have brought into the chapter of romantic love.

Then must come companionship, comradeship, friendship. If the marriage is to be a success, these can only exist between persons of the same mental caliber.

So my advice to you is to pass up the beautiful but dumb girl for a woman with intelligence. If you want a wife of whom you will never tire.

British Families Rush to Resorts

LONDON, March 27—(AP)—Hollaying British families overwhelmed railroads today in a Good Friday rush to the resorts.

The railroads had to carry an extra load of one-time motorists who have been deprived of pleasure-driving gasoline. At Paddington station, terminal for southwest-bound resorts, the GWR, Great Western, long lines were waiting for train space.

Stay-at-home turned out in the warm sunshine. Approximately 1,000,000 persons attended football games in various cities. Thousands lined the banks of the Thames river to see the final warm-ups for tomorrow's Oxford-Cambridge boat race.

Russ Ship Carries Industrial Cargo

JEFFERSON CITY, Mo., March 27—(AP)—The Russian freighter SS "Shakhty," loaded with industrial equipment, sailed from the Clarence terminal Friday, and another Soviet vessel, the freighter "Volga," came in to take its place.

Why Grow Old?

OF COURSE you can keep your good figure after having a baby. Look at charming Betty Fluton who is feeding her little daughter, Lindsay.

By Josephine Lowman

I have a letter from a young mother which says, "I had my first baby six months ago. Before I became pregnant I had a lovely figure, which my husband and my friends admired. I have always had compliments about my good figure. It was just right before I had my baby."

Now, my doctor says that I shouldn't expect to have my girl-child figure any more since I am a mother. This seems strange to me, for even though I know many women do lose their figures when they have children, yet I see many who have had three or four children, and are in as attractive as ever. Please give me your ideas on this subject."

My idea on the subject is—phooey on the assumption that you must lose your good figure just because you have had a child. Years ago I consulted one of New York's outstanding obstetricians. He was not only an expert in technique but in human relationships, and took an interest in the representations of figure and personal attractiveness, personality and happiness because he understood them. He said, "The only reasons for loss of figure are inactivity and laziness. There is not even a permanent spread in the bony structure."

You no doubt ate more than you expended and after delivery continued in your habits of over-eating. All in all, the world you need is a good calorie count, keeping your calories down to the allowable for one who needs to lose weight, and a few abdominal firming exercises, plus waist and hip reduction exercises. If the situation has gone that far.

Do not despair but get busy, and don't blame a maternity figure on your unassuming offspring. Of course, that is a much simpler and more rational attitude but you do not like it, so why despair.

Two warnings: 1. The conditions of delivery vary by individuals. Be certain that exercise is safe for you. 2. If you are nursing your child, you should wait until that is over before counting calories.

If you wish to have my leaflet No. 21 "Care During and After Pregnancy," send a stamped, self-addressed envelope with your request to Josephine Lowman in care of The Edmonton Bulletin.

In 1947 Britain exported almost 1,500,000 bicycles.

YOUR BABY AND MINE

Let Baby Decide When He Has Had Enough

By Myrtle Meyer Eldred

Mothers must be alert to some of the signs of baby's dissatisfaction with his ration. It is inevitable that when he is happy and gaining there is a little dissimulation, but if he is not eating, it is a sign of his dissatisfaction.

When there is a change the mother tends to say, "but he is getting along so beautifully," misreading the symptoms that to more knowing eyes are now those of a hungry baby.

If the baby is getting enough and is old enough to have been established on breast milk or a good formula, it is very unlikely that he will eat often than once in four hours.

This isn't because the mother enforces such a schedule, but because the well-fed baby isn't hungry any longer.

If the baby wakes shortly after a meal, gnaws his hands and cries and the gain is slow or non-existent, more food would seem to be the answer.

Another sign of the need for a change is the baby's restlessness. He may be crying and fussing and not sleeping.

Significant improvement in the formula or diet is the baby's restlessness at night. If he has been eating at night, he can go for twelve hours without waking.

They can and do, unless their night meals are deficient or their full daytime diet lacks sufficient nourishment. Then they advertise this by frequent waking and by fretful behavior in daytime.

Mothers tend to be very wary about the amounts of food they serve. A mother says, "Two teaspoons of custard," at an age when

the baby is eating a whole milk meal.

Gregory George, eight months old, son of Mr. and Mrs. George Sherwood, of 10437 33 avenue.

Household Arts

By Alice Brooks

Refreshingly different Make this new all-over felt-crochet design. As easy as ever to make—have it any length you want.

Simple felt is chosen in a brand new design—with easy scalloped edging. Pattern 7302, directions.

Our improved pattern—visual with easy-to-use charts and photos, and complete directions—makes needlework easy.

Send TWENTY-FIVE CENTS in stamps for this pattern (stamps cannot be accepted) to The Edmonton Bulletin, Household Arts Dept., Front Street, W. Toronto, 1-A, Ont.

Please allow a week or ten days for delivery.

most babies are devouring a half

to a whole cup of this delicious food. They are sure that his stomach cannot hold all he wants to eat. Leave that up to the baby.

KEEP SPOONING FOOD

Keep on spooning in the food. Let it slip opening his mouth as soon as he has had enough. If he is still opening his mouth and looking for more food, don't stop because he has had the allotted portion.

Even with a good and hearty diet there may be a deficiency in some of the food elements. A lack of vitamins-A and D and C, those of which the baby might be deprived

if he had too little whole milk (or butter), too small portions of fish liver oil products or fresh citrus fruits—could easily lead to backward related to faulty nutrition.

We must expect when the baby is well-fed he will also be good most of the day and sleep well both then and at night. If he deviates from this program, then the improvement will come when his diet is enlarged or enriched to make up its deficiencies.

Our leaflet No. 26, "Diet from One to Two Years," may be had by sending a stamped, self-addressed envelope with your request to Myrtle Meyer Eldred, in care of the Edmonton Bulletin.

Tito Denounces Trieste Proposal

Britain, France, United States

Accused Acting Hypocritically

BEIGRADE, March 27.—(Reuters)—Marshal Tito, Yugoslav premier yesterday denounced the three-power proposal to return the territory of Trieste to Italy as "an immoral trick—a new and unusual trick."

He accused Britain, France and the United States of acting "hypocritically" in proposing the return of Trieste to Italy and said the move was "but an electoral trick" to create "hated against Yugoslavia by Italians and against Italy by the Italian Popular Front (Communists) during the April 18 Italian elections."

Tito denounced his three-power denunciation before representatives of Italian cultural, industrial and agricultural workers groups who had attended an Italian minority meeting in Paris.

FREE WILL OF PEOPLE

"The new Yugoslavians have already proved that it desires to live on the basis of terms with all its neighbors, including the Italian people."

FOUR OF YUGOSLAVIA

The Yugoslav news agency Tanjug said the group had made a tour of Yugoslavia.

He said that he hoped the delegates during their tour were able to satisfy themselves "that the peoples of both countries are friends, and enemies as some people would lead us to believe."

"During your journey you have been able to witness the results of the mendacious reports alleging that the entire frontier of Yugoslavia is occupied by troops waiting for the order to break through."

Yugoslavia always would be prepared to solve amicably all issues with Italy, he said.

"Luckiest" Man Has Close Call

LONDON, March 27.—(CP)—British officials today called Captain "Luckiest" Man.

Pilot of a twin-engine plane crash-landed in the Irish sea off the coast of Lough Erne.

Chalmers was catapulted through a plane which was the sole occupant crashed 4,000 feet into the Irish sea off Lough Erne.

When he recovered consciousness Chalmers was clinging to a wing of the plane.

"I suppose I have had an astonishing escape," said the pilot who was taken to hospital with only slight injuries.

In Llangollen, Denbigh, Wales, Arthur Hume-Tuwell suffered severe burns when the plane he was piloting crashed. He climbed unaided from the burning wreckage.

In a third Good Friday accident—and escape—Marvyn Sanders pulled clear with slight injuries when his glider crashed near Lough Erne, a Somerset.

overseas. He urged the continuance of relief for overseas. A letter from Mrs. Dabbinette, who recently moved away, was read. She is a hunchback and is now at home.

Sylvan Lake branch had as its guests members of the Corder WI. Mrs. Corder of the local high school staff was guest speaker.

Cherry Point branch held its Valentine party for the children of three different schools. The library is now established in the home of Mrs. Cherry Point.

Saxsmith branch had Mrs. T. W. Nordin show some of her painting done in the home of the European children. A party is being arranged. Two food parcels have been sent overseas this month.

Alta branch had helped a family in need of food. Mrs. Toepfer gave account of the industries and manufacturing done in each province.

Worley branch has taken over the work of sponsoring a school for one of its projects. Members will help with the Public Health Nurses' Cottage by purchasing various articles for it.

Kincaid branch held a shower of infants' clothing to be sent to a friend in Holland. Mrs. Westwood and Mrs. McDonald conducted a discussion on citizenship. A bingo party will be held April 9.

Mirror branch had a talk on child welfare by Mrs. J. Wilkins. Mrs. Heumann, constituency convenor, told of the founding of Women's Institute. A Valentine tea furnished funds to send parcels overseas. Members began the year by entertaining new members of the branch.

Boyle branch will give its support to the Girl Guides and Brownies. A St. Patrick's tea was arranged. Mrs. Deprone and Mrs. Drews were convenors. Contributions of food were made for a parcel to be sent overseas.

Sedgewick branch had Rev. Brooks give a talk on conditions in the home of the European children.

Big Meadow branch contributed to the fund for the Blind Canada and donated to the Red Cross. A letter is being sent overseas.

Gordon branch is arranging for a shooting contest for early summer. A letter of appreciation was read from four old-age pensioners in England who received a parcel from the branch.

Belmont branch donated a copy of Mrs. F. Grier book in the Park land to the school library. Mrs. J. Hailburton spoke on Canadian Poets and Poetry. Florence Black-

AND QUITE INDIFFERENT, TOO

Quads, Six Weeks Old First Easter Bunnies

By ELAINE KAHN

LATROBE, Pa., March 27.—(AP)—The Zavadas quadruplets, just six weeks old, got a look at an Easter bunny Friday.

Four fat plump rabbits, twice as big as the babies themselves, were brought to the hospital nursery by Mrs. Barbara Zavadas and kept up for the babies' inspection.

The quads, removed from their incubators for the occasion, reacted with hostility and indifference.

John Michael bowed lustily; Bernadette Stueben went to sleep; Barbara Jane concentrated her blue eyes on a photographer.

recounting the event. Anna Mary said her eyes to the whole thing. Mrs. Zavadas, blonde 36-year-old mother of the babies, bought the bunnies a month ago.

"Just as soon as I returned from the hospital I bought them," she smiled. "They're bigger than the babies but I wanted them to have an Easter present."

The quads, born prematurely Feb. 15 by Caesarean section, probably won't leave the hospital until May or June but the family's modest five-room house in near-Dorothy is ready for them at any time.

Four bassists have been wedged into the bedroom of young Larry Bickley, Mrs. Zavadas' five-year-old son by a previous marriage. Four cribs, four high chairs and two double carriages, all gifts of local friends, are on order.

"I have 12 dozen nursing bottles," reported Mrs. Zavadas, "and I have 12 dozen nursing bottles."

Montreal Is Hit By Butter Shortage
MONTREAL, March 27.—(CP)—Many Montrealsers will have to go without butter this weekend, merchants reported last night, as they surveyed empty shelves exhausted by the Easter holiday buying spree.

Few customers were unable to buy more than half a pound today, and near closing time not even this amount was available. The butter shortage is expected to continue for several weeks.

WESTERN-BORN SINGER APPEARS IN TOWN HALL

NEW YORK, March 27.—(CP)—Constantine Stefanik, Winnipeg-born soprano, Friday night gave her first concert in Town Hall with a program including Bach and Handel arias.

Miss Stefanik, who was born in Ukraine, began singing at the age of eight, also sang a group of songs by Brahms and Strauss; Debut Le Jour, operatic aria from "Cherubino," "Tosca," and four French and six English songs.

Among the latter Miss Stefanik, who became a church soloist at 14, introduced the new songs, Christmas, by Elizabeth Hall.

The Canadian soprano, who lives in Westchester County, N.Y., won many awards at Manhattan music festivals in 1937 and 1938. She has studied under Letitia Lehmman, Metropolitan opera and concert star; Fritz Lehmman, the famous soprano's brother; Marie Kariak, noted Russian soprano, and Paul Althouse, former leader of the Metropolitan opera.

Miss Stefanik's personal accompanist, Paul Ulanowski, was at the piano to accompany Miss Stefanik.

She was regarded by the early Romans as an unlikely match, especially for marriage.

An attractive five-room house with a pleasing exterior and efficient interior. This one-story bungalow in Canada. A modern two-bedroom house, it was designed primarily for a wide inside lot but could be built on a corner lot without alteration.

The house could also be built on a narrow property providing the plan was related to that the dining and living rooms were towards the front of the house and the entrance at the side. This would necessitate re-location of the fireplace and living, dining and bedroom windows.

Financial assistance for building new houses such as the one illustrated is available to Canadians under the terms of the National Housing Act, 1944.

The entrance hall, which provides direct access to most rooms, may also be altered to provide a vestibule or to completely enclose the bedroom portion by the addition of doors to divide the hall into two or three separate areas.

The living room is reasonably large and features a fireplace with flanking bookcases. The dining space is planned to include a dining table while the kitchen is efficiently designed to reduce the area to a minimum.

Access to the rear yard and back porch is provided for supervision of children's activities.

W. I. In Northern Alberta
By MRS. HUGH J. MONTGOMERY

Angus Ridge branch donated to the Canadian Air Force Children's Fund. Members are contributing to the fund. A supper and card party will raise funds for further work. The next meeting will be held at the home of the speaker, Mrs. Mervin Bullock, April 1.

Remsey branch is sending parcels to Mr. and Mrs. R. Cain, former members of the district, who are now living in Scotland. Members welcomed Mrs. J. Mellett, a former member of the Homekeepers' Club in Saskatchewan.

Independence branch presented a wool blanket to a recent bride. A discussion on this was held as a constituency conference exhibit. A parcel of clothing was sent to Europe and a donation made to Canadian Appeal for Children. Mrs. Macdonald showed members how to make articles from shells.

Butby branch has sent parcels to Europe. Members will hold a wool drive this month. Mrs. S. Macdonald was the delegate to the district conference.

Coyne branch heard Mrs. J. A. Coyne outline duties of a WI member. A discussion on this was held. A layette was given to a mother. Members will hold a wool drive this month. Mrs. S. Macdonald was the delegate to the district conference.

Cherry Point branch held its Valentine party for the children of three different schools. The library is now established in the home of Mrs. Cherry Point.

Saxsmith branch had Mrs. T. W. Nordin show some of her painting done in the home of the European children. A party is being arranged. Two food parcels have been sent overseas this month.

Alta branch had helped a family in need of food. Mrs. Toepfer gave account of the industries and manufacturing done in each province.

Kincaid branch held a shower of infants' clothing to be sent to a friend in Holland. Mrs. Westwood and Mrs. McDonald conducted a discussion on citizenship. A bingo party will be held April 9.

Mirror branch had a talk on child welfare by Mrs. J. Wilkins. Mrs. Heumann, constituency convenor, told of the founding of Women's Institute. A Valentine tea furnished funds to send parcels overseas. Members began the year by entertaining new members of the branch.

Boyle branch will give its support to the Girl Guides and Brownies. A St. Patrick's tea was arranged. Mrs. Deprone and Mrs. Drews were convenors. Contributions of food were made for a parcel to be sent overseas.

Sedgewick branch had Rev. Brooks give a talk on conditions in the home of the European children.

Big Meadow branch contributed to the fund for the Blind Canada and donated to the Red Cross. A letter is being sent overseas.

Gordon branch is arranging for a shooting contest for early summer. A letter of appreciation was read from four old-age pensioners in England who received a parcel from the branch.

Belmont branch donated a copy of Mrs. F. Grier book in the Park land to the school library. Mrs. J. Hailburton spoke on Canadian Poets and Poetry. Florence Black-

DISTRICT NEWS IN BRIEF

Junior Chamber Elects Officers

Roger Belzil Named President
Active St. Paul Organization

ST. PAUL, March 27.—More than 30 members attended the annual meeting of the Junior Chamber of Commerce which took place in the Town Hall. This was one of the best member turn-outs of the year to witness and take part in the election of officers for the new term.

Roger Belzil was named president of the organization for the ensuing year with Edmond Demaree as vice-president. New secretary of the Chamber is Armand Lord and Lionel Therien was chosen for the position of secretary.

Executive consists of Maurice Mailhot, Laval Fortier, John Wilson, Romeo Bedard and William Bell. Regional committee is Prom. Theroux.

Highlights for the coming season's activities of the Junior Chamber include an extensive town beautification program, the establishing of a flying club with an airport located near the fair grounds and all-out support to the arena outside drive.

The latter has been under way since last fall and has shown considerable progress, both financially and otherwise. Plans, specifications and appropriate costs have been obtained regarding the construction of this type of building.

Junior Chamber activities will also include numerous other community enterprises. An extensive membership drive is progressing, assisted by other members of the organization.

Boer War Veteran Buried Thursday

Funeral service for the late Frank A. Smith, pioneer resident of Edmonton district, was held Thursday, Rev. E. H. Birdsell officiated.

Mr. Smith died in Edmonton March 22 at the age of 73 years.

Born in Toronto, Mr. Smith came to Alberta more than 40 years ago and has since farmed in the Westwood district. He was a veteran of the Boer War.

He is survived by two sisters, Mary Anne and Lily Lyle, both of Montreal.

Olds Couple Wed For 55 Years

OLD, March 27.—A number of guests gathered at the home of Mr. and Mrs. Harry Morris on Tuesday evening to honor the famous 55th wedding anniversary.

Mr. Morris, 78, and Mrs. Morris, 75, were married on March 27, 1893, in the town of Olds, Alberta.

They have three sons, Charles, Edgar and Edmond, and four daughters, Mrs. D. Mitchell, Mrs. E. J. Smith, Mrs. J. H. Smith and Mrs. J. H. Smith.

Mr. Morris has been a member of the Olds Golf and Country Club for many years.

He is a member of the Olds Lions Club and the Olds Rotary Club.

PRICES OF HORSES BETTER THIS YEAR

RED DEER, March 26.—Prices for better animals showed improvement over last year at the annual Red Deer horse sale held this week. One hundred and thirty horses were sold for a total of \$7,017.50, an average of about \$80.

P. Hillman, Red Deer, contributed the top price, a sorrel mare, which sold for \$225. W. A. Rabidoux, Red Deer, had a five-year-old mare which brought \$115, top for single animal. Al. L. Sim and Keith Sim, of Red Deer, were the auctioneers.

A good number of buyers was here and most of the horses were sold to outside men. F. A. Stewart, M. H. Piskey and Holland B. Sharnman were the committee in charge with D. W. Robertson as secretary.

S. Hudson Dies At Police Coupe

EDMONTON, March 27.—The Young People's Union Society, comprising the societies of the Nazareth Church, First Baptist Church and Church of God, held a joint meeting recently. Women provided the entire program.

President, Miss Nellie Lindgren was present and vice president, Miss Alma Gering, was chairman. Mrs. John Throu, Mrs. L. R. Turnquist and Mrs. Victor A. Lindgren were the guest speakers.

They are the wives of the pastors. Rev. Mrs. J. H. Dean, former local pastor of the Nazareth Church, distributed in prayer. Music and singing were featured.

Benes To Speak

PHAGUE, March 27.—(Reuters)—President Edvard Benes of Czechoslovakia on April 7 will make his first public speech since the Communists took over power last month, the Czechoslovak News Agency said Friday.

Benes, 61, was born in Prague and served as prime minister of Czechoslovakia from 1938 to 1945.

He was exiled to the Soviet Union during the war and returned to Czechoslovakia in 1945.

Benes is a member of the Czechoslovak Academy of Sciences and a member of the National Assembly.

SCENES LIKE THIS one at Wichita, Kans., were common through a belt across the midwest where tornadoes cut a path of destruction. At least 30 persons were killed and hundreds injured.

Former Red Deer Citizens Organize

RED DEER, March 27.—Close to 100 former residents of Red Deer enjoyed a reunion in Vancouver recently when a social evening was held by the Red Deer Association.

Ell. Howett, president of the association, welcomed the guests and told of activities in the past few months.

Fred Turnbull, of Red Deer, who is holding at the coast, spoke on Red Deer and the changes here.

Miss Phyllis Goodman and Christopher contributed program numbers.

Officers of the association this year are: President—Ell. Howett; secretary, Mrs. A. A. Cranston; executive, Mrs. A. Koch, Mrs. Pearl Stewart, N. Phillips, D. J. Gunn, Mrs. F. French, H. B. Macneil and F. M. Fowler.

Strome Old Timer Dies at Killam

STROME, March 27.—Another of Strome's old timers, George Boyd, passed away recently in the Killam hospital. Services were held from St. Joseph's church with Rev. Father McCarthy and Rev. Father Foran officiating. Pall bearers were C. Hayes, N. Zimmel, P. Spolin, L. Lorenz, C. Zimmel, L. Blaser.

Mr. Boyd was from Ohio and came to Canada in 1910. He farmed in the Strome area since 1921, retiring just a year ago. His widow, three daughters and two sons survive.

Mrs. J. Huggins and children, of Edmonton have arrived in Strome. Mr. Huggins opened a business here a short time ago.

Italy Acts to Get Voters to the Polls

ROME, March 27.—(AP)—The interior ministry said yesterday that Italian citizens who emigrated abroad to work will receive free railway passage from Italy's border to voting places within the country for the April election.

Return passage from voting places to the border also will be provided by the government. The round trip must be completed between April 15 and 27. Italy's national election is scheduled for April 18. Italian living in Italy who require railway travel to their place of registration will be granted 70 per cent fare reductions, it was added.

Big Catch

PORT STANLEY, Ont., March 27.—(AP)—A crew on the tug Stanley Clipper Friday reeled in 100 pounds of perch and pickerel near this little cove harbor on Lake Erie. It was the first catch of the season. First fish were caught March 7 last year.

Writers, Musicians London Olympic

TORONTO, March 27.—(CP)—Thirteen musicians, writers and architects from all parts of Canada have been chosen to represent the Dominion at the Olympics in London this summer. John Cozma, publicity chairman of the Canadian Arts Council, announced Friday.

The four writers seeking honors in the 1948 Olympics were chosen in preliminary judging by a committee appointed by the Canadian Authors' Association and the Société des Écrivains du Québec. They are: Mrs. Geraldine Wright of Vancouver with a poem, "The Slave"; Gerard Bennett of Saskatoon, Sask., with the lyric, "Le Coureur"; Doris Hedger of Montreal with a short story, "The Hoax Lesson"; Francis Hertel of Montreal with "Petit Poème à la Gloire du Sport."

Judges appointed by the Canadian Music Council selected: song cycle "Of Time and the World" and "Divertimento for Strings" by Toronto composer John J. Weinberg; "A Song for Joy" and "Testament of Youth" by Harry Somers of Toronto; "Sonata for Oboe and Piano" by the Vancouver composer Jean Couture; and "Clips" by Barbara Peckham of Winnipeg.

"Concerto for Piano and Orchestra" by Toronto composer St. George, "War and Peace," a song for full orchestra by Alexander Brunt of Montreal; "Festival Overture," work for full orchestra by Oscar Morawetz of Toronto.

Wallace Says Truman Preparing For War

NEW YORK, March 27.—(AP)—Henry Wallace said last night that President Truman and his advisers are "trying to silence all opposition to their program of rearmament and preparation for war."

Without giving names or further details, Wallace said: "The police commissioner of one of the largest American cities writes a letter in which he says that Henry Wallace is un-American and that he is a traitor. The man charged with upholding the law and protecting the citizens of Detroit advocates violence."

At Detroit, Police Commissioner Barry Toy said he had written the letter to an official of the Wallace-for-President committee, after the official accused him of making anticommunist statements.

Toy said, "if the shoe fits Henry Wallace, let him wear it."

Six Strangled

PEIPING, March 27.—(AP)—Kung Chao-Pu, wealthy rice merchant, his wife, a daughter and three servants were found strangled Thursday night. It was Peiping's biggest mass murder in decades.

The bodies were found by a niece. Police immediately took into custody for questioning a Chinese woman, who was described as a former concubine of the rice merchant. Police said she was suspected for complicity because she recently quarreled with Kung and left him, taking with her two sons born of their union.

IN MEMORIAM

In loving memory of John T.

Trotter, who passed away March

25, 1948, at the hospital.

He was 68 years of age.

He was born in Whitecourt, Alta.,

and was a resident of Whitecourt,

Alta., for many years.

He was a member of the Whitecourt

Action Is Taken To Aid Widow

Parliament Finds Legal Way To Pay Off an Obligation

OTTAWA, March 27.—(CP).—Parliament, in the haste and bustle of adjourning for the Easter recess, found a legal way to pay off a moral obligation.

Passing \$200,000,000 worth of supplementary estimates and interim supply Thursday night, the Commons gave approval to a tiny bill to pay Mrs. Joan Snow the way to the government to meet an obligation to the war widow.

Behind that vote was this story:

SOUGHT INSURANCE

In 1941, Sgt. Frank H. Snow applied for \$400 of veterans' insurance through the veterans' department and paid the premium. However, before the forms could get to Ottawa through the slow-moving channels of the newly-formed insurance system, Snow died and the insurance, not approved, could not legally be paid.

Since then the department has sought legal means of paying the insurance. Passage of the bill by Parliament recognizes the moral obligation and authorizes the department to make the \$400 payment.

Thousands Are Canada-Bound

A former Edmontonian will aid in placing 20,000 European immigrants in Canada during 1948.

He is Dr. V. J. Kaye, liaison officer with the Canadian citizenship branch of the department of the secretary of state of Canada.

Dr. Kaye is now in Edmonton on a tour of the country with W. Haugen, liaison officer of the department's war section.

Purpose of the tour, Dr. Kaye said today, is to renew old contacts and find new ones for aid in the placing of displaced persons.

Dr. Kaye and Mr. Haugen arrived in Edmonton today and will remain here a week before proceeding to Vancouver.

Purpose of his department, explained Dr. Kaye, is to integrate into Canadian life all national groups of immigrants, forming one national fabric.

Many of the European immigrants coming to Canada have relatives in this country, he said.

Dr. Kaye represents 18 different national groups in the undertaking. He came to Edmonton from Zurich.

AN UNLUCKY DAY

It was one of those days when everything seemed to go wrong. It started off early, for the women had decided to clean house. That meant work and everything in the shoe house turned topsy-turvy, which is very distressing to the Teenie Weenie men. No one can account for these unlucky days but Gogo, who is a great believer in signs, says certain things surely cause bad days, and he pointed out the very thing he believed had brought this troublesome day on.

The Teenie Weenie women had routed up all the little people at dawn for the Spring house cleaning. "We'll get the rugs and carpets out before breakfast," the Lady of Fashion told them. While the Cook prepared breakfast she kept all the men busy.

Nothing really bad happened, except a few ruffled tempers at being roused out of their beds so early, until after Skippy came. The chipmunk had been hired the day before to come and haul a cup of water up from the creek on the Teenie Weenie cart because it takes nearly a teacup of water to wash all the walls, furniture and floors in the shoe house. When Skippy came he reported bad news. Two young red squirrels had been done away with by the weasel that had been prowling about the neighborhood.

"It's mighty unlucky to hear bad news before breakfast," warned Gogo. "We'll have plenty of bad luck today."

It's foolish to believe that Skippy's news had anything to do with the terrible things that happened.

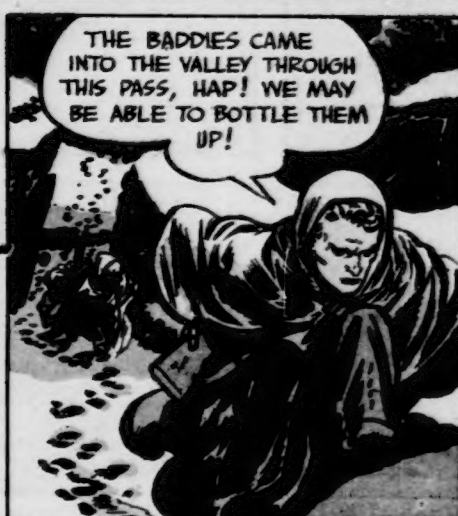

But, anyhow, it proved to be a very unlucky day. First, the Turk fell off the ladder with one of the storm windows he was taking off an upstairs window. He hurt his back and broke all the cellophane in the sash. He fell on top of the Cowboy, who was passing beneath the ladder, and knocked the breath out of that little chap.

Then the Dunce broke the toothpick he was using to beat a carpet and a splinter ran into his arm. The Doctor had just finished digging out the splinter

when he had to attend the Old Soldier, who had stepped into a cherry seed of soft soap and had fallen off the front porch. He wasn't badly hurt, but he broke his wooden leg and he had to spend the rest of the day whittling another one out of a burned match.

A number of other minor accidents happened during the day and Gogo shook his head each time and repeated, "It sure is unlucky to hear bad news before breakfast."
